

# LED SIGNAGE LIGHTING

*SIGNS HAVE NEVER BEEN SO EASY*

**SHENZHEN LINGBENYANG IND. CO., LTD.**

Company Address : 28F, Luban Building, Hongli West Road, Futian District, Shenzhen 518034, China  
Factory Address : 3F, 4F and 6F, Buiding A&B, Xinyongfeng Industrial Area, Yingrenshi Village, Shiyan Town, Bao'an District, Shenzhen 518108, China  
Tel : +86-755-83544570      Web : [www.lbyled.com](http://www.lbyled.com)      E-mail : [info@lbyled.com](mailto:info@lbyled.com)

**Product Catalog**

# ABOUT US

Established in 2004, LBY is an international high tech enterprise specializing in manufacturing, developing and marketing LED signage modules and LED Linear strip. We are recognized by global customers as a professional LED solution provider with innovative products and good services.

Based on our own LED encapsulation line, LBY focuses on making LED module, LED flex and rigid strip. LBY is capable of advanced technology and strong production capacity in this line of business. LBY emphasizes on product quality. We took a lead in conforming to ISO9001 Quality System and all of our products are CE, RoHS and UL certificated. We have more than 40 variety of products which won the national invention or design patent.

LBY will keep working on developing innovative and high quality LED signage modules and LED strips so as to create maximum value to our customers.

# MARKETING AND MANUFACTURING

## LBY Sales Base and R&D Center

Acting on green innovation, efficiency and energy conservation, LBY integrates sincere cooperation and continuous progress into production and sales.

International Marketing Center 1000m<sup>2</sup>

The sales office is located in Luban Building in downtown Shenzhen. We have a team with around one hundred marketing personnel and set up distributing channel and partnership around the world.

Marketing and R&D Center 1800m<sup>2</sup>

Situated in Skyworth Valley in Bao'an, Shenzhen, the research and development center offers innovative products and renders services backing for international and domestic marketing.

## Production Process & Craftsmanship

LBY has always been committed to seeking the best quality in the procession of production. We embrace automatic and semi-automatic LED encapsulation lines, high-speed SMT, LED module and LED strip production lines. Each and every product is 100% inspected under 16 testing procedures and undergoes 48-hour aging test before delivery.

## Labs & Testing Equipments

LBY has a solid-state laboratory, equipped with integrating sphere, thermal shock tester, constant temperature and humidity testing machine, LED high temperature aging testing machine, waterproof testing machine, and other international advanced facilities. Relying on the well-equipped lab, LBY has taken the lead among competitors and delivered more stable, more efficient, more cost-effective products.

CERTIFICATES

Certificates

Patents

As a national high–tech enterprise that advocate environmental conservation, LBY has forged ahead guided by the idea of being a scientific and technological pioneer. We get over 100 independent intellectual property rights, which lay solid foundations for providing products with good quality, great cost–effectiveness and high competitiveness.

LBY obtains ISO9001:2015 Quality Management System Certificate. The products are approved by TUV CE, UL, RoHS,CB, LM–80, and other regional certificates.

LINGBENYANG OPTOELECTRONICS (CAMBODIA) CO., LTD.

LingBenYang Optoelectronics (Cambodia) Co., Ltd. was established on September 12, 2022. It is a VIP enterprise in the electronics industry established in Cambodia at the invitation of the Royal Government of Cambodia and It is LBY's first overseas subsidiary. The company is located in Guande Industrial Park, a key industrial park for Sino–Cambodian cooperation in Takeo Province, Kingdom of Cambodia. The first phase of construction of LingBenYang Optoelectronics (Cambodia) Co., Ltd. has an existing plant area of 6,000 square meters, four automated production lines, 150 employees, and an annual production capacity of 60 million pieces. The establishment of LingBenYang Optoelectronics (Cambodia) is an important measure in the development of LBY and It is also an important step for the company to expand overseas markets.

FACTORY ADVANTAGES

Geographical Advantage

Duty–free export in Cambodia

Modern Production Workshop

Four automated production lines

Professional Teams

A total of 150 foreign trade sales and production personnel

# BACK LIGHTING SOLUTIONS

CRYSTAL HE

Features

Powered by high output LUMI LED.  
High Efficacy>150LM/W.  
Constant voltage.  
Integrated transparent 170°optic lens.  
30/20 pcs per string.  
CE, RoHS, UL, TUV, BIS, CB and LM–80 certified.

Application

Apply to 6–15 cm depth signs at airports, metros, banks, buildings and shopping malls, etc.

Beaming Angle

Project

Dimension

Specifications

Part NO.	Dimensions(mm)	Input Vol.	LED Qty/pcs	Power(W/ pcs)	Lumen/lm	CCT(K)
ZE01QAW	23*17.4*9.6	12V	1	0.36	60	6500
ZE02QAW	52*18.5*9.6	12V	2	0.72	110	6500
ZE03QAW	78*18.5*9.6	12V	3	1.08	165	6500
ZE04QAW	42.1*42.1*9.6	12V	4	1.2	180	6500

CRYSTAL HE PLUS

Features

Powered by high output 2835 LED.  
High light efficacy more than 150LM/W.  
Constant voltage, CC optional.  
No polarity limit input for CC and CV.  
Dimmable.  
Integrated transparent 170°optic lens.  
50/20 pcs per string.  
CE, RoHS, UL, TUV, BIS, CB and LM–80 certified.

Application

Apply to 6–20 cm depth signs at airports, metros, banks, buildings and shopping malls, etc.

SLIMBOX STANDARD

Features

Powered by high output 2835 LED.  
Constant current.  
Clear 170° optic lens.  
50 pcs per string.  
CE, RoHS, UL, TUV, BIS, CB and LM–80 certified.

Application

Apply to 3.5–15 cm depth single–sided light box at airports, metros, banks, buildings and shopping malls, etc.

Beaming Angle

CCT CONTROLLER

Features

- Using WIFI+Bluetooth control module, you can realize white light dual color temperature single and multiple regions at the same time.
- Can customize the scene, present the ideal dimming color effect, music rhythm, environmental color change and other functions.
- Cell phone APP control, free cloud services, remote networking control 4, power supply voltage DC12–48V wide voltage, safe and stable, wider range of applications.
- 3 years warranty.

Specifications

Item No.	KY000G–49–006	Control Method	APP/Control Panel
Dimensions(mm)	118*45*29	Cnnection Method	WiFi/Bluetooth
Input Vol.	DC12~48V	Operating Tem.	–20°C~+45°C
Output Current	12V Tim<10A Road	IP Grade	IP20
Output Channel	CW/WW		

RGB/RGBW CONTROLLER

Features

- Using WIFI + Bluetooth control module, you can achieve RGBW single and multiple area control at the same time.
- Can customize the scene, present the ideal dimming and color effect, music rhythm, environmental color change and other functions.
- Cell phone APP control, free cloud services, remote network control.
- Power supply voltage DC12–48V wide voltage input, safe and stable, wider range of application.
- 3 years warranty.

Specifications

Item No.	KY000G–49–005	Control Method	APP/Control Panel
Dimensions(mm)	134.8*40*29.5	Cnnection Method	WiFi/Bluetooth
Input Vol.	DC12~48V	Operating Tem.	–20°C~+45°C
Output Current	12V Tim<10A Road	IP Grade	IP20
Output Channel	RGBW		

DIGITAL CONTROLLER

Features

- The connected LED can present a variety of colors by the combination of red, green, blue primary colors, colors can be flashing. Breathing, jumping; Full–color light bar can be intermittent, to achieve a variety of dynamic flow.
- Built–in Doodle Smart WIFI + Bluetooth control module, Doodle Smart provides cloud services, remote networking control.
- Power supply DC5–36V wide voltage input, safe and stable, wider range of applications.
- With music rhythm, DIY scenes, free to switch scenes and other functions.
- Can achieve multiple or single area control, APP operation or control panel system operation.
- Controller to increase the amplification function of the back end without connecting the amplifier.
- 3 years warranty.

Specifications

Item No.	KY000G–49–015	Control Method	APP/Control Panel
Dimensions(mm)	110*39*24	Cnnection Method	WiFi/Bluetooth
Input Vol.	DC5~36V	Operating Tem.	–20°C~+45°C
Output Current	192W/ Road	IP Grade	IP20
Output Channel	2 Passages		

DMX CONTROL SYSTEM

LBY-ST8

Features

- 8 port output, each port can take up to 512 LED pixel points, single controller can control up to 4096 pixel points using offline control mode, all programs are saved in the SD card.
- Built–in 49 kinds of test effects, power on the light without SD card, a key to write DMX lamps and lanterns address.
- Grouping control function, wall washer, high power lights, guardrail lights ... The group control function can control more lamps and lanterns.
- IEMC electromagnetic compatibility design, with good anti–interference ability.
- Equipped with LCD display, showing the current operation status.

Specifications

Part NO.	Dimensions(mm)	Input Vol.	Pwer Consumption(W)	Output Port	Output Signal	Max. Control Pixels
ZC–ST8P	210*110*32	12/24V	Max 8W	8 port	TTL/RS485	1024/512

DMX CONTROLLER

LBY-809  
Master Controller

Features

- Ultra–large touch screen, intuitive display, quick and simple operation, controller status monitoring at any time.
- Powerful performance, able to load up to 160,000 pixels or 80 slave controllers.
- Offline playback function integrated into one, reliable and easy to use.
- Supporting Bluetooth control, real–time mobile phone APP control.
- Supporting timing ( Holiday ) play and multi–level encryption function.
- The master controller can automatically/manually number the sub–control IDs, can be multiple or individually numbered.
- The master controller has multiple built–in effects and dimming function to test the loaded multi–channel lamps(RGB/RGBW lamps are supported ).
- The controller has DMX512 address writing and testing functions. It can write address for DMX512 IC loaded on single port or all ports, and test the address.
- The controller adopts standard TCP/IP network protocol, and the signal transmission is more stable. Selectable 100 Gigabit/Gigabit rates.
- Can be used offline and can carry up to 160,000 pixel points or 60 controllers.
- IC controller for DMX lamps comes with address writing function.

LBY-700K-B  
Sub Controller

Features

- 32 to 65536 grade gray control, software Gamma correction processing.
- Supports various point, line and area light sources, supports various rules, and special–shaped processing.
- Offline control: The master control and the sub–control are adopted, and the play effect is stored in the SD card of the main controller (offline player).
- In the same project, only need to insert the card in the master control is ok, the sub–control has no need to insert the card, and it is more convenient to switch the effects.
- Online control: can achieve: program timing playback, program clip selection, effect brightness adjustment, white balance adjustment, etc. to meet the needs of customers in the application and debugging of a variety of needs.
- Single master (offline player) with a maximum load of 60 sets sub–control or maximum load of 160,000 pixels points; communication between controllers using international standard TCP / IP network protocol, transmission speed is more stable and fast.

DIGITAL CONTROL SYSTEM

LBY-LM501

Features

LBY–LM501 is a lighting control system for night lighting. The device supports DMX512 and SPI serial signal control. Support single color temperature, double color temperature, RGB full color, RGBW4 color and any foot sequence lighting control. Chinese and English LCD display, built–in perpetual calendar, on–line and off–line, with 4 outputs, each 501 can take 32 SVE4X512 sub–control or 16 SVEX8X512 sub–control. Online PC to the device based on 100 megabit Ethernet communication technology, support Art–net network protocol to achieve remote control.

- Online and offline integration, online and offline mode free switching.
- LCD display, support Chinese and English free switch.
- Support for DMX512 lamps and lanterns a key to write address.
- Support DMX512 and SPI communication protocols.
- A set of systems support a variety of communication protocols.
- One set of system supports single–color, two–color, full–color lamps and lanterns.
- Support standard Art–net network protocol communication.
- Built–in perpetual calendar supports playing programs by week, by holiday and by time.
- Complete interface anti–reverse protection, can withstand up to DC36V reverse protection.

1. Controller output interface	6. Product Logo
2. Work status indicator	7. SD card slot
3. Network ports	8. ▲ Upward button; ▼ Down button
4. Power switch	MENU: Function menu key; CFM: Editing function keys
5. Power input interface	9. LCD

LED POWER SUPPLY

LRS-75-24

Power: 75W  
Dimensions: 99\*97\*30mm  
Input Vol.: AC90V–265V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥90%  
Working Temperature: –30°C~+70°C

LRS-100-24

Power: 100W  
Dimensions: 129\*97\*30mm  
Input Vol.: AC90V–265V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥90%  
Working Temperature: –30°C~+70°C

LRS-200-24

Power: 200W  
Dimensions: 215\*115\*30mm  
Input Vol.: AC90V–265V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥90%  
Working Temperature: –30°C~+70°C

LRS-300-24

Power: 300W

Input Vol.: AC90V–265V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥90%  
Working Temperature: –30°C~+70°C

LMHV-30-12

Power: 30W  
Dimensions: 218\*29\*20mm  
Input Vol.: AC200V–240V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
PF>0.95  
Working Temperature: –25°C~+50°C

LMHV-60-12

Power: 60W  
Dimensions: 218\*29\*20mm  
Input Vol.: AC200V–240V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
PF>0.95  
Working Temperature: –25°C~+50°C

LMHV-100-12

Power: 100W  
Dimensions: 248\*29\*20mm  
Input Vol.: AC200V–240V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
PF>0.95  
Working Temperature: –25°C~+50°C

LMHV-150-12

Power: 150W  
Dimensions: 264\*40\*22mm  
Input Vol.: AC200V–240V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
PF>0.95  
Working Temperature: –25°C~+50°C

SLIM POWER SUPPLY

LV-24030

Power: 30W  
Dimensions: 180\*29\*20mm  
Input Vol.: AC170V–260V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
Working Temperature: –40°C~+50°C/80°C

LV-24060

Power: 60W  
Dimensions: 160\*42\*30mm  
Input Vol.: AC170V–260V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
Working Temperature: –40°C~+50°C/80°C

LV-24100

Power: 100W  
Dimensions: 210\*42\*30mm  
Input Vol.: AC170V–260V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
Working Temperature: –40°C~+50°C/80°C

LV-24150

Power: 150W  
Dimensions: 280\*42\*30mm  
Input Vol.: AC170V–260V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
Working Temperature: –40°C~+50°C/80°C

LV-24200

Power: 200W  
Dimensions: 224\*80\*31mm  
Input Vol.: AC170V–260V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
Working Temperature: –40°C~+50°C/80°C

LV-24250

Power: 250W  
Dimensions: 274\*80\*31mm  
Input Vol.: AC170V–260V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
Working Temperature: –40°C~+50°C/80°C

LV-24300

Power: 320W  
Dimensions: 274\*80\*31mm  
Input Vol.: AC170V–260V  
Output Vol.: 12V/24V  
Input Frequency: 50–60Hz  
Efficiency: ≥85%  
Working Temperature: –40°C~+50°C/80°C
